

## Badminton England Training Matrix

Badminton England have introduced new and updated guidance for our badminton community, supporting you to create safe, welcoming and inclusive environments for all those playing, working, and volunteering in our sport.

This matrix aims to make clear the training and education that should be undertaken for the different roles within your club and which roles require a Badminton England DBS check.

We are a Sport that Cares about everyone, and our training has been developed to incorporate education on safeguarding both adults and children.

Full details on the courses available and how to access them contact [safeguarding@badmintonengland.co.uk](mailto:safeguarding@badmintonengland.co.uk)
